

## **Board of Directors Confidentiality Policy**

Many Hands is committed to protecting the confidentiality of applicant and member nonpublic information. Many Hands requires that each board member keep confidential all nonpublic information received from any organization that applies for a Many Hands grant, and not disseminate or use such nonpublic information for any reason other than evaluation of that organization's grant application. Nonpublic information includes any information provided to Many Hands by an organization that is not generally available on that organization's website or in materials (such as news releases, brochures, and fundraising materials) provided or shared by that organization.

Additionally, Many Hands requires that each board member keep confidential all personal or financial information about its members, including contact information and donation history, unless a member has authorized the sharing or publication of such information.
